

**“PEOPLE LOVE THE WEST COQUITLAM NEIGHBOURHOOD LOCATION BECAUSE IT’S SO EASY TO GET EVERYWHERE YET IT’S SO QUIET.”**

WENDA TSENG

#### **Get Fit**

While the surrounding outdoor recreation opportunities might seem endless, when you’d prefer to work up a sweat at home, Uptown 2 is still ready to accommodate. “Right on site will be a 2,315-square-foot Wellness Pavilion with yoga studio and fully equipped gym,” Wenda explains. “And after a workout, Uptown 2’s infrared sauna or steam room give you two more choices for relaxing.”

#### **Invest in Yourself**

Naturally, at Uptown 2 you’ll get all the luxurious features you’ve come to expect from Bosa Properties: marble backsplashes, integrated cabinetry, custom closet organizers, and European-style appliances “But thanks to Bosa’s long history of expertise, these homes are affordable too,” Wenda says. “It’s the perfect blend of beauty and practicality.”

And here’s yet another bonus. “Studies show that homes built near a SkyTrain typically have higher resale value than homes in other locations,” Wenda says. “It’s just another reason why so many of our purchasers are buying a home they’re actually going to live in.”

**Previews for Uptown 2 begin this fall. Be sure to register today for priority access. For more information and to register, visit [bosaproperties.com](http://bosaproperties.com) or call 604.939.2677.**

## West Coquitlam gets cranked up

// BY SUSAN M BOYCE

**W**ho says a good thing can’t get better? Clearly not the folks at Bosa Properties. Hot on the heels of the overwhelming success of the inaugural tower at Uptown, this fall will see the much anticipated Uptown 2 commence sales. And like its sister residence, interest is already running high in this elegantly appointed 29-storey highrise.

“People love the West Coquitlam neighbourhood location because it’s so easy to get everywhere yet it’s so quiet,” says sales manager Wenda Tseng. No kidding. When complete, homeowners will be barely a block from the new Burquitlam SkyTrain Station on the Evergreen Line, walking distance to Lougheed Town Centre, and a short, easy drive or bus ride to three higher education facilities: SFU, Douglas College, and BCIT.

Kay and Young, who are downsizing from their Point Grey house, couldn’t agree more. “I like the idea of being so close to rapid transit and having easy access to places like the North Shore or Buntzen Lake for hiking,” Young says. “And Kay loves to cook, so having a brand new grocery store right in the building and two large Korean supermarkets just down the road at Lougheed and North Road will be a dream come true for her... that and having a gas range at home again.”
